telegram mini-app

ABOUT PROJECT

Description

A real-time PvP Telegram Mini App developed by Dzeta.Tech, featuring matchmaking, tournament modes, and on-chain betting for a seamless competitive gaming experience inside Telegram.

Style

Retro-pixel art with clean outlines and minimal anti-aliasing. This style balances readability with nostalgic charm, ensuring the rock/paper/scissors gestures remain instantly recognizable despite the pixel aesthetic.

Concept

A real-time, crypto-powered Rock-Paper-Scissors application that combines competitive skill-based gameplay, transparent on-chain wagering, dynamic rewards, and a sleek modern interface to deliver an engaging, fast-paced gambling experience.
