

DZETA.TECH TOKENOMICS

PRESENTATION & INFOGRAPHICS

AT DZETA.TECH, WE DESIGN COMPLETE TOKEN ECONOMIES — FROM MODELING AND SIMULATIONS TO STRATEGIC VALIDATION. WORKING CLOSELY WITH COINSTRUCT, A TOKENOMICS FIRM TRUSTED BY \$1.5B+ TVL CHAINS, WE BRING DATA, PRECISION, AND REAL-WORLD INSIGHT TO EVERY PROJECT.

OUR APPROACH

TOKEN SUPPLY

CLMM-based impact forecasting, TGE modeling, emission schedules, and inflation control mechanisms.

TOKEN DEMAND

Staking programs, ROI-based airdrops, retention-driven rewards, and sustainable demand loops.

OPTIMIZATION & TESTING

Try to keep each one short—focused on the most essential information—so it’s easy to scan.

TOKENLM — TOKENOMICS AI

On-chain benchmarking, sustainability checks, and research-backed insights powered by real-time data.

DELIVERABLES

Comprehensive
documentation
and economy
flowcharts

Editable models
and calculation
spreadsheets

Simulation files
(Machinations /
Python)

Public
tokenomics deck
for website or
community
